Ref: Status Report on Dellar Landfill Closure Plan

Dear Mr. De Frate:

The last status report was submitted on November 1, 2009. From November 1, 2009 to January 31, 2010, the following tasks have been accomplished to address the Corrective Action Order for the Dellar Landfill issued by the Central Valley Regional Water Quality Control Board:

1. Ongoing monitoring after storm events is occurring to inspect for erosion and maintenance of the stock pile is being addressed.
2. The LEA inspected the site and found no standing water on site.
3. The City received approval for the 100 percent Engineering Drawings from the Regional Water.
4. The City is preparing the bid specifications package for constructions that is scheduled to start in July 2010.
5. Funding for the closure work has been identified and a CIP was created to pay for the estimated closure cost at this time.

Making a Difference in your Neighborhood

6. The Department of Utilities and Neighborhood Services continues to work with the City Police Department to keep homeless from camping on the property's gate between the 28th Street Landfill and the Dellar property has been constructed, completing the fencing of the property.

Sincerely,

A handwritten signature in black ink, appearing to read 'Marty Strauss', written over a series of horizontal lines.

Marty Strauss
Integrated Waste Planning Superintendent
